

Since 2011, Powergrace has been delivering innovative construction chemical solutions with a strong focus on quality and customer satisfaction. Starting from the Gujarat market, we are now present across major states in India, emerging as one of the fastest-growing providers of bonding solutions, with a nationwide network of over 400 partners.

Our qualified and professional team ensures customers receive complete guidance and support, resulting in sheer satisfaction. With in-depth expertise in the tile and marble industry, Powergrace offers a comprehensive range of tile and stone bonding solutions. Under this division, we also provide tile installation services.

Why Construction Chemicals ?

Construction chemicals are essential in addressing key challenges in modern construction. They:

- Increase construction speed
- Improve durability and longevity
- Enhance ease of construction
- Improve load-bearing capacity
- Resist chemical loads
- Resist abrasion and wear
- Withstand mechanical stress
- Perform under environmental conditions

Vision

To be a global leader in research & development and manufacturing quality products while delivering value-added services for the construction chemicals industry.

Mission

As one unit, Powergrace strives to deliver high-quality products and services that enrich customer experiences consistently. In return, customers reward us with leadership in sales, profits, and value creation, enabling growth and prosperity for all stakeholders, including employees, shareholders, customers, and the company itself.

Values

Values drive our culture and translate into action. Our core values ensure product excellence and customer satisfaction.
